

## ABOUT US

AMBROSONICS, LLC is a high technology, music product development company. We specialize in electric and acoustic musical instrument products such as guitars and basses. AMBROSONICS provides the technologies that set instruments with our products and designs, apart from all the others.

Our aftermarket accessories allow instrument upgrades providing many more pickup selections, great DSP sounds & cool looking features to add to your guitar.

## DSP & MP3 GUITARS

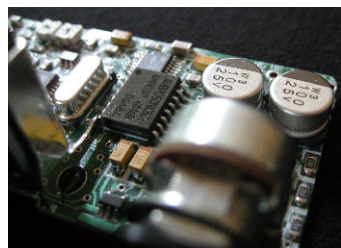

AMBROSONICS, LLC  
MUSIC PRODUCTS & SERVICES

## TECHNOLOGY R&D

**T**echnology is the way to the future. We pride ourselves in the tasteful use of electronic technology in music systems and the musical instrument industry.

AMBROSONICS, LLC utilizes both new and proven technologies when approaching product design. Our extensive R&D has

been issued US Patents and has won a Silver CQIA Connecticut Innovation

Prize for award winning Music Product Innovations & Inspirational Instrument Amplification.

**W**e develop our own products along with providing design and engineering services to other music corporations. Licensing our technologies is another area we specialize in as well as being a supplier to Musical Instrument OEMs throughout the United States and Canada.

## INNOVATIVE PRODUCTS

Our debut at Winter NAMM 2008 displayed the first true MP3 Recording Guitar which continues to be the first of it's kind! It's equipped with on-board Digital & Analog effects, USB and iPod inputs!

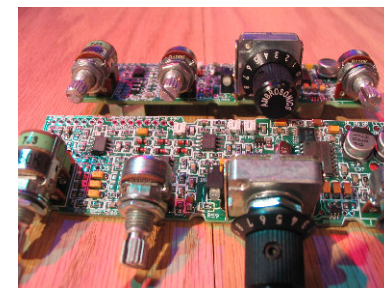

The Multi-Tonal Guitar Series with patented Programmable Blade Switch allows more multiple pickup combinations than any other guitar. The ST-225 has 225 Single coil sounds.

## WAY COOL PRODUCTS

**V**ery versatile, is our analog & digital DSP preamp with iPod inputs. This preamp has adjustable voicing for guitar, bass, violin, banjo or mandolin. Designed to run from a single 9 volt battery, it measures 1 X 4 inches to reside inside your instrument!

**L**ight up your POTs with our Illuminated Sonic Glow POTs! A high quality 500K audio POT with very low "on" resistance (<6 Ohms). Available in Red, White & Blue. Other colors coming soon.
